

About Us!

The Grayhaven Sail Club of Detroit was formed in 1992 by a small group of avid sailors who happened to berth their boats at the City's then new Grayhaven Marina. In past years we have seen the club's membership grow from a few members to over 40, and we are still enjoying continued growth today. We are proud to boast that our membership consists of those who enjoy the sport of sailing, those who love the thrill of a good race, and those who just like the leisure of cruising to far off ports.

Our Mission . . . to foster the sport of sailing in the Detroit Metropolitan Community through the donation and coordination of the human and financial resources required for the education and training of diverse individuals who want to learn the art of sailing. We will endeavor to join together and encourage all persons currently engaged in sailing activities and we are committed to the advancement of safety at sea, knowledge of seamanship, and preservation of our marine environment.
